PROFESSIONAL PROFILE

Full-Stack Software Engineer with experience building high-performance, scalable web applications and e-commerce platforms.

Specialized in modular UI architecture, API integrations, and delivering client-focused products that connect modern frontend stacks with robust backend logic.

Strong skills in React, TypeScript, and Next.js, with 80+ delivered websites across e-commerce, SaaS, and corporate projects.

WORK EXPERIENCE

02/2024 – Present

Full-Stack Developer

Freelance – Remote

Client projects across web platforms, e-commerce, and custom product development.

Tech stack: Next.js, React, TypeScript, Tailwind CSS, GSAP, Framer Motion, Node.js, Prisma, Vercel, Git

- Built 5+ production web applications with Next.js (App Router), using Server Components and optimized API routes.
- Developed interactive, high-fidelity user interfaces with GSAP and Framer Motion for premium landing pages and SaaS platforms.
- Contributed to scalable platform development, including a multi-tenant marketplace and an enterprise messaging platform.
- Integrated REST/GraphQL APIs and managed global application state with React Query and Zustand.
- Set up Git-based CI/CD deployments on Vercel with a focus on performance and Core Web Vitals.

03/2023 – 09/2025

WordPress Developer

Klev – Dbayeh, Lebanon

Custom WordPress development, client delivery, and e-commerce implementation.

Tech stack: WordPress, PHP, JavaScript, WooCommerce, ACF, Elementor, REST APIs, Shopify

- Delivered 80+ WordPress websites end-to-end, from local setup to custom themes and reusable PHP components.
- Built custom plugins and widgets in PHP and JavaScript to support specific business logic.
- Worked directly with international clients to translate complex requirements into technical solutions.
- Improved website performance and SEO, with measurable gains in Core Web Vitals and load times.
- Refactored legacy codebases to improve maintainability and applied modern security best practices.

SELECTED PROJECTS

Equation Media • Next.js • GSAP • Framer Motion

Media agency website for the MENA region with advanced animations and modern interactions.

Nou Architecture · [Next.js](#) · [Framer Motion](#)

Architecture portfolio with clean layouts and smooth page transitions.

Chiclique Store · [WordPress](#) · [WooCommerce](#) · [Payment integration](#)

Fashion e-commerce store built from scratch with custom checkout and payment flows.

INTERNSHIPS

07/2021 – 10/2021

[Intern](#)

OGERO – Lebanon

LTE, IMS, FTTH/FTTC, fiber optics

- Telecom internship: testing of digital switching systems, LTE/IMS troubleshooting, and FTTH/FTTC field work.

EDUCATION

2018 – 2023

Diplôme d'Ingénieur in Computer and Communications Engineering

Antonine University – Beirut, Lebanon

Concentration: Software Engineering and Networks · 5-year engineering degree

TECHNICAL SKILLS

Frontend

JavaScript (ES6+), TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS, GSAP, Framer Motion, state management

Backend & Database

Node.js, PHP (Laravel), Next.js API Routes, Prisma ORM, MySQL, PostgreSQL

DevOps & Tools

Git/GitHub, Vercel, Docker, CI/CD, REST APIs, technical SEO

Engineering (Academic)

Cisco networking, OpenCV, machine learning, CNN model evaluation, Python

LANGUAGES

- Arabic (native)
- English (C1)
- French (B1)
- German (B1, intensive B2 course until 12/2026)
